

The representation of a road, track or footpath is no evidence of the existence of a right of way.

Contour (15m interval)  
 Index contour (75m interval)  
 Auxiliary contour  
 Scattered rock and boulders  
 Predominantly rocky ground  
 Major crag, large boulder  
 O.S. trig pillar, large cairn  
 Spot height (from air survey)

Contours change from brown to grey where the ground is predominantly rocky outcrops, small crags and other bare rock.

Improved pasture  
 Rough pasture  
 Fell or moorland  
 Open forest or woodland  
 Dense plantation  
 Forest ride or firebreak  
 Boundary, maintained  
 Boundary, remains

On moorland walls, nailed walls and fences are shown. For farmland, only the outer boundary wall or fence is shown.

**Rights of way:**  
 Public footpath with path on the ground  
 Public footpath without path on the ground  
 Public bridleway with path on the ground  
 Public bridleway without path on the ground

GRID NORTH  
 MAGNETIC NORTH  
 Magnetic north is west of grid north in 2002 decreasing by about 1° in 6 years

This map was compiled from original photogrammetric and field surveys.
